## 1. Introduction

This document will guide you through the steps that will allow you to re-use a formula which has been saved in the job management.

## 2. Prerequisites

**Job Management** consists of tracking the mixes done by the users and creating mixes reports.

## 3. Moving a Formula from the Job Management Section to the Mixing System

- i. Open the Job Management Section

Click on the Job Management button on the main screen.

The Job Management window will open.

The screenshot shows the 'Reporting' window with the following data in the table:
